

T-YEP-600 — Year-End Project

Scope of the project

Groups of 4 to 6 persons

1 week to define the project, 11 to complete it

Progressive validation : 1 to 9 credits

The very first week

Define the tools and formation needed for your project

Define the scope of the project and its requirements

Synthesize everything in a document

Send said document for approval

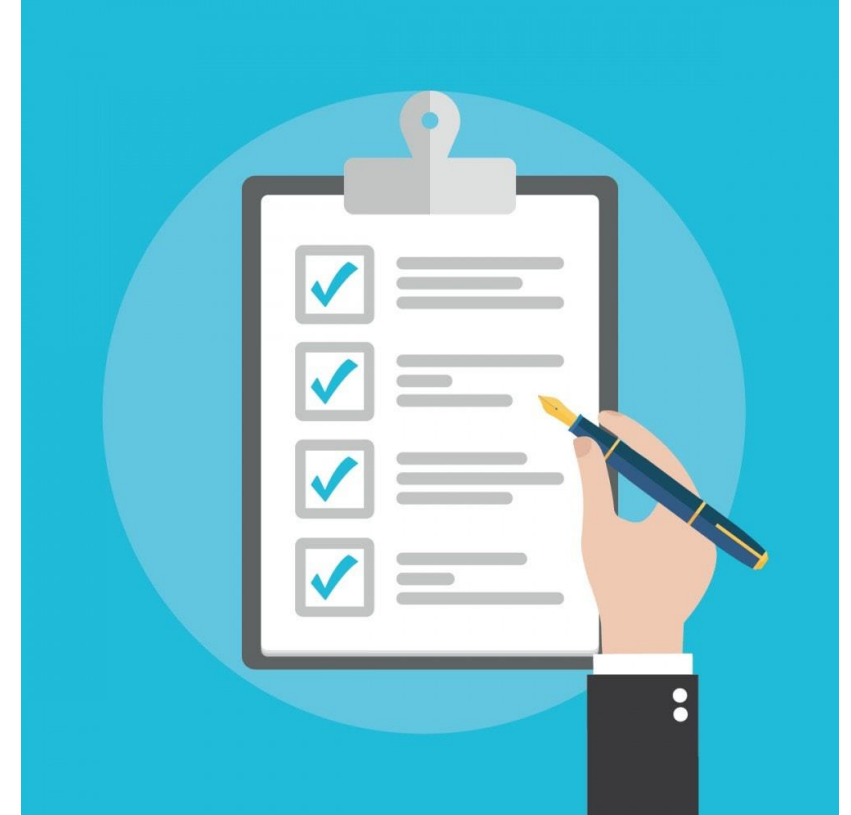

The document

Must contain most of the requirements of your project

Must include the hours spent studying

May be subject to small changes during the project

Project follow-up and delivery

3 follow-ups (every 2 weeks) + 1 final keynote

Before the follow-up, you must update the initial document with the tasks you completed

The project keynote will be focused on the final product and the percentage of completion of the project
